

TRY A NEW STITCH

MAKE A TASSEL

To make a tassel, cut 2 pieces of thread and set them aside. Wrap your remaining thread around a 3" piece of cardboard. Tie one of the threads you set aside around the loops at the top of the cardboard. Cut the loops at the bottom of the cardboard.

Take the other piece of thread you set aside, and wrap a band around the tassel about $\frac{1}{2}$ inch the top. To finish off the band, insert the thread in a needle and run your thread up through the band and down through the bottom of the tassel.

Trim the bottom ends of your tassel.
